\$220.00

(Ex Tax & Delivery)

A revolution in professional skincare application.

The ORB is unique - incorporating beautiful 'on-trend' with total functionality. The ORB upgrades treatments without the need to change the treatment menu.

Heating products in around 15 minutes the ORB gives the confidence and pleasure of optimum temperature for up to an hour – remote from the base station and free from power cords.

Unique, luxury, warm brush application:

The deeply relaxing brush application feels like blades of warmth are flowing over your skin, seamlessly melting in the skincare. Painting product and temperature.

Reliable heat in the palm of your hand:

ORB temperature reliability means your focus is on your client 100% of the treatment, you no longer having to ‘temperature test’ on wrists or hands.
